SKILLS

INFRASTRUCTURE & K8S

Kubernetes • Helm • Docker
Pulumi • Terraform • GitOps/ArgoCD
AWS • GCP • Bare Metal • CI/CD

SRE & OBSERVABILITY

Prometheus • Grafana • Loki
Datadog • SigNoz • Alertmanager
OpenTelemetry • SLOs
Incident Response • Runbooks

BLOCKCHAIN & FINANCE

Cosmos SDK • CometBFT
Validator & RPC Ops • DeFi
Low-Latency / MEV • Orderbooks

SECURITY

HashiCorp Vault • Key Mgmt
Secret Rotation • Multi-sig
Threat Modeling

AI & AGENTIC SYSTEMS

LLM Orchestration • AIOps
Multi-agent Workflows
Autonomous Infra Automation

PROGRAMMING

Proficient: Go (Golang)
Familiar :
Python • NodeJS • TypeScript
Interested: Rust

CERTIFICATIONS

AWS Solutions Architect
AWS Cloud Practitioner
Scaling Docker on AWS
Blockchain for Business

EXPLORING NOW

Autonomous multi-agent orchestration
Observability and tracing
LLM-driven reliability
Agentic trading pipelines

EXPERIENCE

INJECTIVE LABS | HEAD OF INFRA & PERFORMANCE ENG.

Sep 2021 -- Dec 2025 | Remote | injective.com

- **Head of Infrastructure** for a top-10 DeFi L1 blockchains (Cosmos SDK / CometBFT) — owned full lifecycle from **0-to-1 build-out** to production at scale.
- Multi-cluster bare-metal + cloud hybrid (AWS/GCP) **Kubernetes** platform for validator nodes, archive nodes, RPC/API — **99.9%+ SLO**.
- All **laC in Pulumi**; high-performance **off-chain stack**: event-driven indexers and low-latency order routing pipelines for live DeFi markets.
- Full **observability stack** (Prometheus, Grafana, Alertmanager, Datadog, OTel), SLO budget error tracking, with on-call rotation and incident runbooks.
- **Security**: Vault, secret rotation, mainnet key management, network segmentation, and threat modeling for critical systems parts.

TELIVITY | CTO

Jun 2020 -- Aug 2021 | Remote | telivity.io

- Built Centel: **IoT PaaS** Cloud-Native AIOps driven IoT Platform.

MAINFLUX LABS | FOUNDING ENGINEER

Mar 2018 -- Apr 2020 | Remote | mainflux.com

- Co-founded open-source cloud-native IoT platform in **Go** (MQTT/CoAP/HTTP), deployed via **Kubernetes**. hands-on across multiple commercial deployments globally.

SUPERPHONE | DEVOPS ENGINEER (FREELANCE)

Jan 2017 -- Dec 2017 | superphone.io

- Migrated platform to microservices on **AWS** with auto-scaling, HA, and full observability.

MUSICFIRST | SOFTWARE ENGINEER (FREELANCE)

Sep 2015 -- Mar 2018 | Remote | musicfirst.com

- Full-stack developer on multiple products for a world-leading **music education platform**.

NTSYSTEMS | SOFTWARE DEVELOPER & TEAM LEAD

Sep 2011 -- Feb 2015 | Novi Sad, Serbia

- Led team building distributed systems in Python for EU, Russia, and USA clients.

PROJECTS & OPEN SOURCE

DATAPACE | BLOCKCHAIN DATA MONETIZATION --- NOKIA VC

Oct 2017 -- Sep 2019 | open-ecosystem.org

- **Hyperledger Fabric** data marketplace with on-chain payment settlement via internal Smart Contract — one of the earliest production enterprise blockchain platforms.
- Backed by **Nokia's internal VC**; integrated with Nokia's Open Ecosystem partner network.

MAINFLUX | OSS IoT PLATFORM --- CO-AUTHOR & MAINTAINER

2015 -- 2021 | github.com/mainflux/mainflux

- Cloud-native multi-protocol IoT platform in **Go** (MQTT/CoAP/HTTP/WebSocket), deployed via Kubernetes.
- Adopted by enterprise teams globally; active open-source community with 1k+ GitHub stars.
